E. E. RANDALL
Florist, Nurseryman, and Landscape Planter

185 WEST STREET
READING : MASSACHUSETTS
My twenty-five years' experience is at your service

Foreword

You are not only adding to the value of your property when you plant trees, shrubs and hardy flowers, but you are also increasing the joys of yourself and family. And whether you own your property or not, matters little, for you owe it to your home folks and to the public to beautify your surroundings. Bare ground is an eyesore to everyone and denotes wastefulness and carelessness on the part of its owner. Plant more trees and shrubs and flowers—give them to your friends as gifts. Your gift will increase in value as the years go by. Start this season and plant a tree or shrub for each of your children, or lacking children, plant one for your wife, your mother, or some other loved one. Plant trees and shrubs, and plenty of them—no one ever regretted planting them, but many have regretted not having done so sooner.

Instructions for Ordering by Mail

If you would have your order correctly filled and promptly delivered, write plainly, giving your full name and address, and also directions how to ship—whether by parcel post, express, or freight, giving best route for quick delivery.

Cash must accompany all orders coming from a distance, if sender is unknown to me.

When making inquiries concerning the prices of various plants, shrubs, or trees, please state amount desired so that lowest prices may be quoted.

Order early as there will be a great demand for nursery products this spring and fall, and if your order is delayed you will be unable to secure some varieties. In order to encourage early ordering, I will deduct 5 per cent from all orders received before April 10 if accompanied by cash.

Trusting that you will allow me to demonstrate that Randall's trees, shrubs, and plants are the best you can buy at the price, I am

Yours to command,

E. E. RANDALL

185 West Street Reading, Mass.

I will be glad to give you advice on any matter connected with horticulture. I am a graduate Landscape Architect and can give you valuable assistance in planning your grounds or making any improvements about your home. Testimonials from gratified customers will be sent on request. I have had 25 years of experience in pruning and planting.

If you order before April 10, and send cash with order, you may deduct 5 per cent
Plant a tree or shrub for each of your children

Ornamental Shrubs

Shrubs are an absolute necessity in every planting, no matter how small. In the large home-grounds they have a multitude of uses, and in the small back yard they also have a place. They require little care, give lovely blooms, and their rich green foliage is decorative all season.

Almond, Double-flowering. Dainty, small, double pink flowers are borne all along the branches in June, before the leaves appear. $1.25 each, $10 for 10.

Althea, Pink (Rose of Sharon). Tall shrubs with a profusion of single, pink, Hollyhock-like flowers in late summer. 35 and 75 cts. each.

Red. Like the above but with red flowers. 35 and 75 cts. each.

Variegated. This variety has red flowers blotched with purple at base of petals. The dark green foliage is variegated with white. 50 cts. and $1 each.

Buddleia magnifica variabilis (Butterfly Bush). A shrub 3 to 8 feet high, bearing large, deep rose-purple flowers with dark orange eye and the margin of the petals reflexed. 50 cts. each.

Send me a list of your flowering shrubs and I will tell you the best time to prune them.
It's not a home till it's planted

ORNAMENTAL SHRUBS, continued

Calycanthus floridus (Sweet Shrub). The old-fashioned “shrub” with its double, chocolate-colored flowers and spicy fragrance. 50 and 75 cts. each.

Coralberry (Sympboricarpus vulgaris). A conspicuous shrub because of its abundance of plump red fruits that are clustered along the arching branches until late winter. 50 cts. each.

Deutzia scabra candidissima. Pretty shrub 6 feet high with an abundance of double white flowers in June and July. 35 and 50 cts. each.

scabra crenata. Flowers double, pale pink. Grows 6 feet high. 35 and 50 cts. each.

Forsythia suspensa. A graceful shrub with branches drooping to the ground where they take root, and literally covered in early spring with golden yellow flowers. 75 cts. and $1 each.

suspensa Fortunei. An upright bush with gracefully arching branches covered with golden yellow flowers in early spring before the leaves appear. 50 and 75 cts. each.

Honeysuckle, White. A handsome ornamental shrub with a great profusion of fragrant white flowers in early spring. One of the best shrubs. 35 and 50 cts. each.

Pink. Like the preceding but having pink flowers. 50 and 75 cts. each.

You can safely entrust the selection of varieties to me
The prices in this list will compare favorably with those in other catalogues. Quality considered, you cannot buy for less.

Snowball (Viburnum Opulus sterile)

ORNAMENTAL SHRUBS, continued

Hydrangea, Hills of Snow (Snowball Hydrangea). Large, showy heads of snow-white flowers 5 to 7 inches across, decorate the plant throughout the season. 50 cts., 75 cts., and $1 each.

paniculata grandiflora. The hardiest Hydrangea and the most popular. The pure white flower-heads are so massive that they bend the branches with their weight. 50 cts., 75 cts., and $1 each.

paniculata grandiflora, Tree Form. Same as preceding but grown in tree form. Fine for formal effects. $1.50 each.

Philadelphus grandiflorus (Mock Orange). A vigorous grower and produces a profusion of large, pure white, single, fragrant flowers in clusters. 75 cts. and $1 each.

Snowball (Viburnum Opulus sterile). A good, old-fashioned shrub with large, globular clusters of white flowers in May. 35 and 50 cts. each.

Snowberry (Sympboricarpos racemosus). A bushy shrub 3 to 5 feet high with loose racemes of pinkish flowers in summer and waxy snow-white berries in autumn. 50 cts. each.

You can depend on me to do my best to satisfy you, for I want your future orders and recommendations.
Plan to plant another tree

ORNAMENTAL SHRUBS, continued

Spiraea aurea. Small, double, white flowers and golden yellow foliage make this a very attractive shrub for all purposes. 50 cts. each, $3.50 for 10.

Bumalda. Rarely grows higher than 2 feet, but is vigorous and the upright branches bear a profusion of deep pink flowers in dense, flat-topped clusters. The foliage is bright green, sometimes variegated with yellow. 50 and 75 cts. each, $3.50 and $6 for 10.

Bumalda, Anthony Waterer. A compact, free-flowering variety with bright crimson flowers in dense clusters until late autumn. 75 cts. each, $6 for 10.

prunifolia (Bridal Wreath). In early spring the long, sweeping branches are literally covered with small, double white flowers. Leaves turn brilliant orange and scarlet in autumn. 75 cts. each, $6 for 10.

salicifolia. A shrub reaching a height of 5 feet and covered in June and July with a wealth of double, pale pink blooms. 50 cts. each, $4 for 10.

Thunbergii. Feathery, bright green foliage and a profusion of pure white flowers in April and May, make this one of the most popular of the Spireas. 75 cts. each, $6 for 10.

Vanhouttei. A 6-foot shrub with arching branches, dark green leaves, and a profusion of white flowers in clusters. 50 cts. each, $4 for 10.

Weigela rosea. One of the finest of the Weigelas. It is rather hardy, free-flowering, and reaches a height of 6 feet. Very conspicuous in May because of its profusion of rose-colored blossoms. 50 and 75 cts. each, $3.50 and $6 for 10.

aurea variegata. A dwarf form with attractive foliage variegated green and yellowish white, and charming rose-colored flowers. 75 cts. and $1 each.

Please hand this list to a friend and get him or her to order with you—it will make it cheaper for you both.

6
White Pines are very hardy and are also excellent for porch-boxes in winter.

Trees and Shrubs for Reforestation and Specimen Planting

**White Pine** (*Pinus Strobus*). One of the handsomest of the evergreens and particularly suited for reforestation and specimen purposes in the New England States. Of dense, pyramidal habit, thickly covered with rich dark green needles. 1 to 2 ft., 50 cts.; 2 to 3 ft., $1; 3 to 4 ft., $1.50; 4 to 5 ft., $2.50; 5 to 6 ft., $3.50. Prices on larger quantities on request. Car-lot orders solicited.

**Rock Maple.** A long-lived, symmetrical tree reaching a height of 120 feet. The foliage is bright green above and lighter beneath, in autumn assuming tints of yellow and scarlet. 15 cts. to $1 each, according to size and quantity.

**Scarlet Oak.** A splendid specimen tree 80 feet high. A rapid grower; deeply lobed, sharp-pointed leaves which turn bright scarlet in fall. 4 to 6 ft., 75 cts. each, $7.50 per doz.

**High-Bush Blueberry.** An excellent specimen shrub. It is very symmetrical and when in bloom is very attractive. The great fruit-clusters, which literally cover the bush are delicious and bring good prices in the markets. In autumn the foliage takes on a bronzy tint. Extra-fine specimens, $2 each, $20 per doz.

**Spiraea tomentosa** (Native Pink Spirea). A very attractive shrub, reaching a height of 4 feet and covered with panicles of deep pink flowers from July to September. Excellent for naturalizing. 35 cts. each, $25 per 100.

**Spiraea salicifolia.** A 5-foot shrub with light pink flowers in dense, oblong panicles. $35 per 100.

High-Bush Blueberry is exceedingly pretty when covered with blossoms, and its beauty continues until autumn when its foliage assumes a bronze tint.
Rose Bushes make ideal presents for your friends—and for yourself

Bush Roses

No planting, however small, is complete without at least a few Rose bushes, and below will be found the best of the Hybrid Perpetuals (HP), Hybrid Noisette (HN), and Moss (M), or June-blooming classes, and the Hybrid Tea (HT), or everblooming class.

All Roses are 75 cts. and $1 each, according to size

Alfred Colomb. HP. Large, full flower of strawberry-red with crimson-carmine reflexes. Hardy.

American Beauty. HP. Soft carmine veined darker red is the color of this large, cupped Rose. Strong grower with long, strong stems.

Coquette des Alpes. HN. Well-shaped, double flowers of pure white with center shaded carmine.

Crested Moss. M. A lovely Moss Rose having a delightfully fragrant pale rosy pink bloom crested with rich green shadowy moss.

Frau Karl Druschki. HP. The most popular Rose in America. Its immense blooms sometimes reach a diameter of 6 inches, are snow-white, and while they appear in great profusion in June, are also borne at frequent intervals later in the season. A vigorous grower.

George Dickson. HP. One of the most gorgeous of the deep velvety crimson Roses. The blooms are large, double, and fragrant.

There is no greater joy than owning a Rose-garden
The best Hardy Roses—those that grow well and bloom freely—are included in this catalogue.

**BUSH ROSES, continued**

**General Jacqueminot.** HP. The well-known "Jack" Rose with its brilliant scarlet-crimson flowers—large, full, globular and fragrant.

**Gruss an Teplitz.** HT. Another very popular Rose because of its everblooming quality. The crimson-scarlet flowers are borne in profusion from June to frost.

**J. B. Clark.** HP. The large, full blooms are deep scarlet in color, shaded with blackish maroon, and are slightly fragrant. A vigorous grower.

**Lady Hillingdon.** T. Beautiful buds and handsome flowers of clear apricot-yellow. Plant is a hardy and vigorous grower and a good autumn bloomer.

**Magna Charta.** HP. Rosy pinkish carmine flowers with a strong fragrance, are borne profusely on vigorous plants.

**Mme. Caroline Testout.** HT. Lovely blooms of satiny rose, shaded darker at center and lighter at edges, are produced in profusion on the vigorous bushes.

**Paul Neyron.** HP. The largest pink Rose in commerce, often reaching 6 inches in diameter. It is a lovely clear pink, shaded soft rose, and has a rich fragrance.

**Soleil d'Or.** Per. Beautiful in bud and flower, being a rich yellow with nasturtium-red shadings. Flowers large and full.

**Ulrich Brunner.** HP. The large, light clear red blooms tend toward scarlet and are abundantly produced on the vigorous plants.

Roses are excellent Mother's Day gifts.
Climbing Roses

The Climbing Roses are invaluable for adorning porches, trellises, pergolas, and the like. They make a beautiful display when in bloom and their rich green foliage is attractive the remainder of the season.

Blue Rambler (Veilchenblau). Panicles of reddish lilac flowers, changing to amethyst and steel-blue with age.

Cl. American Beauty. One of the most profuse bloomers in the climbing class and a strong, vigorous grower. The flowers are rich carmine and have a delightful fragrance.

Crimson Rambler. The old favorite that in June produces a wealth of rich red flowers in clusters. A strong grower.

Dorothy Perkins. Another favorite that has been planted largely all over the United States. Soft blush-pink blooms with curved and curled petals that make the clusters extremely attractive. Vigorous.

Please hand this list to a friend and get him or her to order with you—it will make it cheaper for you both.
Ask about your pruning problems—when you should prune different varieties

**Excelsa Roses**

**CLIMBING ROSES, continued**

**Excelsa.** Of the same type as Crimson Rambler, but an improvement on that variety in color, hardiness, habit, and its freedom from mildew. The scarlet-crimson flowers are borne in immense clusters on the vigorous plant, making a beautiful display in June.

**Hiawatha.** A single Rose of great beauty, being intense crimson in color, shading to clear white at base of petals. Vigorous plants with light green glossy foliage.

**Paul’s Scarlet.** A practically new climber and one that needs but to be seen to be desired. It is a dazzling scarlet-red—nothing like it in Roses—never turns blue, and lasts well on the stalk. The flowers are large, semi-double, and are borne in clusters.

**Tausendschön.** The name means “Thousand Beauties” and is well deserved by this excellent Rose. The cherry-pink buds open to flowers of a lighter shade which finally change to almost white, and the combination of all these colors in one cluster make it a veritable bouquet. A strong grower and almost thornless.
My 20-acre nursery is especially adapted for producing plants and shrubs with good strong roots that transplant well and thrive.

Hedge Plants

Thunberg's Barberry (*Berberis Thunbergii*). Low spreading shrub with brilliant scarlet fruit and leaves in fall. Excellent for hedges as it requires little or no trimming. 50 cts. each, $40 per 100.

California Privet. A handsome shrub with rich glossy green leaves. Excellent hedge plant. $6 to $10 per 100, depending on size and quantity ordered.

Ibotan Privet. A graceful, very hardy shrub, reaching a height of 10 feet, with small panicles of white flowers and rich green foliage.

Vines

No house is quite complete without a few vines to soften its harsh angles and shade its porches. They are invaluable, too, for pergolas, arbors, trellises, embankments and the like.

Clematis Jackmanni. An excellent vine with large deep velvety purple flowers. $1.25 each.

*paniculata*. Panicles of small, white, fragrant flowers in late summer. A rapid grower with handsome foliage. 75 cts. each.

Ampelopsis Veitchii (Boston Ivy). A strong, clinging vine of rapid growth. It is excellent for brick or stone walls and in autumn turns to brilliant hues that make it very attractive. 75 cts. each.

Hall's Japanese Honeysuckle. A handsome variety that holds its dark green foliage well into winter. Fragrant yellow and white flowers from July to fall. 75 cts. each.
Money spent in buying trees, shrubs, and hardy flowers increases in value each year; that spent in interior furnishings decreases yearly.

**Hardy Perennials or Biennials**

The Hardy Perennials come up year after year and bloom from July to October. The Biennials are planted one year and bloom the next. The following include the best of both classes.

All 25 cts. each, $2.50 per doz., except where noted

**Achillea Ptarmica, The Pearl.** A free-blooming, hardy perennial with pure white, double flowers borne in clusters on long stems. Easy to grow. Height, 1½ ft.

**Agrostemma coronaria** (Rose Campion). A hardy perennial 2 feet high with a profusion of rose-colored flowers in summer and autumn.

**Anchusa italic a, Dropmore Variety.** This perennial grows to a height of 4 to 5 feet and bears an abundance of bright blue, forget-me-not-like flowers on graceful stems.

**Anemone japonica** (Windflower). Large rosy purple or carmine flowers with yellow center, borne on long stems. The foliage is dark green and much lobed. Blooms from September to frost.

**Arabis alpina** (Rock Cress). A trailing perennial plant that is fine for rockeries. Pure white flowers on erect spikes.

**Aquilegia, Long-spurred Hybrids** (Columbine). Hardy perennials. These are a great improvement over the old Columbines in size of flower, length of spur, and in number of color variations. I have all shades—golden yellow and white, violet-blue and white, dark blue and white, red and yellow, rose and white, etc.
You have the daily joy of owning the trees and shrubs you plant in addition to the knowledge that you are increasing the value of your property.

Campanula Medium

HARDY PERENNIALS or BIENNIALS, continued

Bocconia cordata (Plume Poppy). Hardy perennial. The creamy white flowers are borne in July and August on plants 6 to 7 feet high. Fine for a background.

Campanula carpatica (Bellflower). Reaches a height of 1 1/2 feet and bears an abundance of white, blue, or pink bell-shaped flowers in July and August. A very pretty hardy perennial.

Campanula Medium calycanthema (Cup-and-Saucer). Hardy perennial. White, pink, or blue flowers, often as many as 35 to 40 open at once on a single plant. The flowers resemble a cup and saucer in shape, hence the name.

Cassia marilandica (American Senna). A charming perennial plant with showy panicles of yellow flowers in July and August. Height, 3 ft.

Centurea montana (Perennial Cornflower). The large violet-blue flowers are borne from July to September. Height, 2 ft. Very pretty.

babylonica. Silvery white foliage and yellow flowers combine to make this a most attractive perennial. Grows 6 to 10 feet high.

Coreopsis grandiflora. A most popular hardy perennial with large, rich golden yellow flowers from late June to autumn. Very graceful and a good cut-flower. Height, 2 ft.

Chrysanthemum maximum (White Ox-eye Daisy). Hardy perennial. Large, white flowers from June to frost. The plants grow 3 feet high and are of easy culture.

King Edward VII. Hardy perennial with a wealth of large, pure white flowers all season.
It's not a home till it's planted

HARDY PERENNIALS or BIENNIALS, continued

Cerastium tomentosum (Snow-in-Summer). Pretty, silver-leaved trailing hardy perennials, fine for edging and rockeries. White flowers. Height, 6 in.

Cypripedium acaule (Lady’s Slipper). This hardy Orchid is very showy and well worth planting. The plant sends up two broadish green leaves from the base, and from between them comes a stalk a foot high bearing a single, large showy flower of rose-purple color.

Delphinium belladonna. Lovely pale blue flowers on spikes 4 feet high. A beautiful hardy perennial.

Mixed English Hybrids. These are a great improvement over the old varieties in every way. My stock contains all shades of blue. You will be delighted with it.

Dianthus Hedewigii (Japanese Pink). Unusually large and brilliant flowers are produced by these various types of Japanese Pinks and they come in a great variety of colors, from white to deep maroon, some oddly edged, striped, and ringed.

Digitalis (Foxglove). This hardy perennial has come to be one of the most popular of garden flowers. The tall flower-spikes are 2 to 3 feet high and vary in color from pure white to darkest maroon and purple and from cream to deep yellow, and some have combinations of these colors that are most attractive. Blooms in June.

Gaillardia (Blanket Flower). Blooms all summer long until frost and is an easily grown perennial. The flowers are large, very lasting, and of brilliant color—fiery reds, reds and yellows, salmon-red, etc.

Gypsophila paniculata (Baby’s Breath). A plant with dainty, filmy foliage and very small white flowers. Fine for mixing in bouquets of other flowers.
My twenty-five years' experience is at your service

Border of Hollyhocks

HARDY PERENNIALS or BIENNIALS, continued

Hibiscus (Mallow Marvels). Vigorous plants with large, showy, single, hollyhock-like flowers about 6 inches across, in shades of white, pink, and red.

Hollyhocks. These splendid hardy perennials are excellent for the back of the border or along fences. The colors vary from white to deepest red, and also shades of yellow.

Iris germanica (Fleur-de-Lis). The largest-flowered class of the Irises, with very wide foliage and very sweet-scented, like orange blossoms. They are all tall, strong growers.

All Irises, 35 cts. each, except where noted

Pallida Dalmatica. Standards fine lavender; falls clear deep lavender. Flower very large; fine for cutting. Height, 40 in. 50 cts. each.

Kharput. Standards violet; falls velvety violet-purple; very large handsome flowers on long, stiff stems. Height, 30 in.

Florentina Alba. A very pretty ivory-white variety tinged with lilac. Excellent cut-flower.

Mme. Chereau. Standards pure white edged with azure-blue; falls white with blue penciling.

Rhein Nixe. Standards pure white; falls deep violet-blue with a white edge. 50 cts. each.
You can safely entrust selection of varieties to me

Border of Peonies

HARDY PERENNIALS or BIENNIALS, continued

Liatris pycnostachya (Blazing Star; Kansas Gayfeather). A very showy hardy perennial plant with spikes of rosy purple flowers 5 to 7 feet high in August and September.

Lilium auratum. A beautiful white Lily with crimson spots and a yellow band through the center of each petal. 50 and 75 cts. each.

speciosum (L. lancifolium). White flowers, suffused rose-pink in center and spotted blood-red; anthers red. A very showy Lily.

Pachysandra terminalis. Dwarf plants that are principally valuable as a ground-cover and for their more or less evergreen leaves. The small white flowers are borne in spikes.

Pansies. Seed from specialists from Kenilworth and Oregon strains. We have an excellent selection of these beautiful flowers in all colors and all types, principally giant-flowering varieties, and many rare sorts.

Yet marked I where the bolt of Cupid
Upon a western flower before milk-white
Now purple with Love's wound.
And maidens call it "Love in Idleness."
—Midsummer Night's Dream.

Peonies. Our stock of Peonies includes all the leading varieties and colors. Strong clumps, with 3 to 5 eyes, 50 cts. and up, according to variety.
Everyone is fond of Hardy Ferns. They are no trouble to grow and have a refreshing appearance in hot weather.

HARDY PERENNIALS, continued

Phlox. This hardy flower is deserving of its great popularity for it is easily grown, produces beautifully colored flower-heads, and is lasting. We have only choice varieties in White, Pink, and Red.

Polyanthus (Primrose). Fine spring-blooming and free-flowering hardy perennials good alike for pot or garden culture, and in a variety of colors and markings. Height, 9 in.

Polemonium (Jacob’s Ladder). Blue or white flowers in clusters. Beautiful old-fashioned hardy perennial border plants. Height, 2 feet.

Pyrethrum (Colored Daisy). Showy hardy perennials growing to 2 feet, with brilliant and lasting flowers that are red, pink, yellow, etc.

Viola cornuta (Tufted Pansies). Dwarf plants about 6 inches high, that do well in partially shaded places. Will be permanent for years with a little protection. Produces an abundance of its purple flowers all season.

A planting of Hardy Ferns

Hardy Ferns

Osmunda cinnamomea (Cinnamon Fern). Often reaches a height of 5 feet, and 8 inches wide. When young it is clothed with rusty wool but becomes smooth when full grown. Thrives in wet soil and shady places. 25 cts. each, $2 per doz.

regalis (Royal Fern). One of the handsomest of the large Ferns. It grows 2 to 3 feet high. Demands a moist soil, and can be grown in still water no deeper than 3 inches. 25c. each, $2 per doz.

Mixed. Good clumps, 15c. each, $1.50 per doz.
There is no better section for growing most kinds of fruit than New England

Fruit Department

My Fruit Trees and small fruits are well grown and are guaranteed true to name. If properly planted and cared for they should straightway start into good healthy growth.

Apples

All Apple trees 75 cts. and $1 each, according to size

Baldwin. Large; deep red; crisp and juicy; vigorous grower; heavy bearer. November to March.

Delicious. A rather new Apple, but very popular for commercial purposes or the home orchard. Brilliant dark red fruits of large size, with fine-grained, crisp, melting, juicy flesh having a delightful aroma. A good keeper and shipper and a heavy annual bearer. November to February.

Early Harvest. Fruit bright straw-color, of medium size, with rather acid flavor. Good bearer. August.

Fall Pippin. Large; rich yellow when ripe; flesh firm, juicy, aromatic. Strong grower. September.

Gravenstein. A large yellow Apple overlaid with red. The flesh is firm, juicy, sprightly subacid. A dependable cropper. September to November.

Northern Spy. Large; bright red, overspread with delicate bloom; flesh tender, rich, delicious; bears well. November to March.

Red Astrachan. Large; deep crimson; juicy, rich, acid; productive. August.

Rome Beauty. Good size; yellow, heavily mottled red; flesh nearly white with slight tinge of yellow or green, firm, fine-grained, rather crisp, juicy, aromatic, mild subacid. November to May.
You can generally get two dozen trees from us for the same price you would pay for one dozen from a tree agent.

APPLES, continued

Stayman’s Winesap. Medium size; yellow, covered with red; flesh fine, crisp, and high-flavored. Heavy cropper. November to April.
Wolf River. Large; greenish yellow, flushed with crimson; flesh white, juicy, tender, with a mild subacid flavor; good cropper. Sept. to Dec.

Peaches

All trees, 50 cts., 75 cts., and $1 each, according to size

Belle of Georgia. A creamy white variety with a beautiful crimson cheek. The flesh is white, tinged with red at the pit, juicy, tender, sweet, mild. Freestone. Midseason.

Carman. Large creamy white or pale yellow variety with deep blush; flesh tender and pleasantly flavored. Tree remarkably hardy. Nearly freestone. Early.

Champion. Creamy white, splashed with carmine, with a blush of darker red; flesh very juicy, sweet, and tender. Tree is vigorous and productive. Freestone. Early midseason.

Elberta. The great commercial Peach. Large handsome fruit with orange-yellow skin nearly overspread with red and much mottled. The flesh is yellow, firm, but tender and mildly subacid. Midseason. Freestone.

Early Elberta. Like the above but several weeks earlier in maturing its fruit.

Oldmixon Free. Large, creamy white fruits, blushed and mottled with red; flesh tender, rich, and good. The tree is a vigorous grower and very productive. Late. Freestone.
At these reasonable prices, packing of trees will be charged at cost, unless otherwise arranged, or where a large quantity is ordered.

PEACHES, continued

Rochester. The large, orange-yellow fruits are blushed with deep dark red, and mottled. The flesh is yellow, stained with red near the pit, very juicy, melting, highly flavored. Tree large, upright, spreading, productive. Early mid-season. Freestone.

Stump. Fruit large, creamy white, blushed, mottled and splashed with red; flesh white strongly stained with red near the pit, juicy, tender, and melting, sweet, rich, and pleasantly flavored, aromatic. Nearly freestone. Late.

Pears

All Pear trees $1.25 each

Bartlett. Another good Pear and a favorite for many years. The large waxen yellow fruit is blushed red and has buttery, very juicy, and highly flavored flesh. Bears early and abundantly.

Buerre Bosc. One of the best of the Pears. The fruit is large, pyriform, with white flesh, melting very buttery, and of rich delicious flavor.

Kieffer. An excellent canning Pear. The fruits are large, very handsome, rich yellow tinged with red, somewhat russety. The flesh is white, buttery, and juicy. A vigorous grower and early and tremendous bearer.

Sheldon. Fruit large, roundish; greenish russet, becoming cinnamon-brown; flesh juicy, melting, sweet, vinous; tree vigorous, hardy, and fruitful.

Plums

6-ft. trees, $1.50 each

Abundance. A medium to large Japanese Plum with rich cherry-red skin having a distinct bloom. The flesh is deep yellow, very juicy, subacid. It is usually necessary to thin out the fruit as the tree is inclined to overbear.

Burbank. Japanese. Large, nearly globular fruit, with clear cherry-red skin and a thin lilac bloom. The deep yellow flesh is sweet, quite meaty and firm. Vigorous grower.

Lombard. Medium-sized violet-red fruit with yellow flesh, juicy and pleasant to the taste. Tree hardy and very prolific.

October Purple. A strong-growing, productive Japanese variety that bears large, round, purple fruits of good quality.

Red June. Claimed to be the best Japanese Plum. Its fruits are large, brilliant red; flesh delightfully subacid. Ripens its fruit well and is a good keeper. Tree a good bearer.
Grow your own Grapes and make your own Grape-juice—ask for price of Grape-vines in quantity

Cherries
All Cherry trees $1.25 each

**Early Richmond.** An excellent cooking variety, having medium-sized red fruits, with very juicy, acid, moderately rich flesh. A good cropper.

**Montmorency.** The finest acid Cherry grown. Large, bright, clear, shining red fruit, with flesh solid, juicy, rich, acid. The tree is an early, annual, and prolific grower and very hardy.

---

Concord Grapes

Grapes
All Grape-vines 35 cts., 50 cts., and 75 cts., depending on size

**Campbell's Early.** The fruit of this variety ripens early and keeps in good condition for weeks. The bunches are large and thickly set with large round berries with a light purple bloom. The pulp is tender, rich and sweet. It is a hardy, vigorous grower and a profuse bearer.

**Concord.** The great market Grape. Bunches large and compact, berries large, round, almost black, covered with bloom; pulp juicy and sweet. Very hardy and productive.

**Moore's Early.** Matures 20 days before Concord. A very hardy Grape with large bunches of good-sized black berries, having a heavy blue bloom. The pulp is of good quality.

**Moore's Diamond.** Ripens a few days before Concord. Bunches handsome, large, compact, slightly shouldered; berries large, delicate greenish white, with rich yellow tinge when fully ripe; pulp tender, with few seeds, rich, juicy and sprightly. Vine a vigorous grower entirely free from mildew.

Write for prices on Blue Spruce and other kinds of Evergreens

Gooseberries

All Gooseberries 35 cts. each, $3 for 10

Downing. A large, handsome pale green variety, distinctly veined. The skin is smooth and the flesh rather soft, juicy, fine for dessert or cooking. Vigorous; productive.

Houghton. A reliable variety with medium-sized pale red fruit, tender and good. Hardy and enormously productive.

Currants

All Currants 35 cts. each, $3 per doz.

Cherry. Very large berries in moderately long clusters. The fruits often measure ½ inch in diameter and are round, deep red, rather acid in flavor. Plants erect, stout, vigorous, and productive.

Fay’s Prolific. Less acid than Cherry. The clusters are large; berries large, rich red, long-stemmed and easily picked. A great bearer.

Bed of Hyacinths

Bulbs and Roots for Spring and Fall Planting

We have an extra-fine stock of Daffodils (Narcissi), Caladiums (Elephant’s Ear), Dahlias, Gladioli, Hyacinths, Lilies, Tulips, and the like, for fall and spring planting. Write for prices and descriptions.
Plants

I make a specialty of growing good, strong Vegetable and Flower Plants, and you can depend on plants purchased from me being true to name, and ready to make a vigorous growth when placed in the ground.

**Vegetable Plants.** Brussels Sprouts, Cabbage, Savoy Cabbage, Red Cabbage, Cauliflower, Tomato, Leek, Kale.

**Flower Plants.** Asters, Marigolds, Strawflowers, Summer Chrysanthemums, Salvias, Pansies, etc.
